MAIN ADVANTAGES OF THE PANTHER EX SERIES:

1

Sturdiness: built to perform, PANTHER EX are made with high-quality materials and a durable construction that works in the harshest conditions. All seals are made of special Viton for extreme temperatures and ensure high reliability in both diesel and gasoline transfer down to - 22°F.

2

Unrivaled Flow-rate: with incredible flow rates, PANTHER EX offer the highest performance in the market. The ability to deliver fuel efficiently and quickly makes it ideal for refueling vehicles of any size ensuring a steady flow even on complex systems.

3

Ease of use: PANTHER EX pumps are designed to be intuitive and easy to use. Refueling operations become a simple task; even in challenging environments.

4

New tank Connection: designed to ensure a quick and easy installation, the new 2”NPT bung adaptor allows the pump to be mounted smoothly and securely fastened with its Easy Lock union ring. The new Easy Lock system adds security to your system, as well, by allowing the pump to be anchored to the tank using a padlock.

5

Long-lasting durability: with an innovative design and high-quality materials, this pump is built to last. Able to work in CONTINUOUS DUTY S1, it avoids unnecessary downtime when refueling large fleets. Its reliability is an investment in the future of your business.

6

Safety first: Safety is our top priority. The motor is designed to ensure continuous service under all conditions. The new contactless switch is maintenance-free.

Ensuring safe and fast refueling is critical. Don't compromise when it comes to refueling your business. The new PANTHER EX represents the state of the art in innovation and durability

Select the quality, ruggedness, and superior performance that only PANTHER EX can deliver. Step forward and discover the difference it can make to your business!
