

TECH TANK 440L PA

MADE IN ITALY 

DESCRIPTION

Rigid polyethylene tank for the transport of diesel for non-commercial use with exemption ADR 1.1.3.1, with built-in transfer unit consisting of rotary vane self-priming pump delivery hose Ø19 4.5 meters long and automatic nozzle with swivel. The system can be integrated with flow meter for measuring the diesel. The suction shut-off valve prevents leaks of fluid during transport. Equipped with pressurizing/depressurizing relief valve. The lockable lid boasts rafinate design and proven long-lasting service.

FEATURES

- flow rate 60 LPM | 15,6 GPM
- power 600W
- voltage 230V
- cable 2m
- filler cap 2" BSP-G
- delivery 4.5m, Ø 19mm
- nozzle automatic
- capacity 440L
- body material polyethylene
- empty weight 64Kg
- fluids diesel
